

**The LumboLux™** is a soft, elastic, patient-friendly LSO. It is, essentially, an elastic "corset" that carries a reasonable reimbursement.

**Features & Variations**

- A separate front panel enables the Kydex insert to always remain centered on the torso.
- The back Kydex insert has built-in spinal relief.
- The two-stage elastic closure makes it easy for the patient to apply effective compression.
- Available in black or white
- Three heights: short (SH), standard (ST), tall (TL)
- Neutral (flat stomach) or pendulous (full stomach).
- 0, 7, 15 (standard) or 25 degrees lordosis
