

Rebel Series

Patented Technology

Townsend Motion Hinges; Synergistic Suspension Strap; Anti-rotational tibia shell contouring.

Structure

Rigid aircraft aluminum: Rebel-Pro fabricated from the most rigid material; Rebel-Lite is made from a lighter, easier to contour aluminum.

Shell Options

Thigh: 7 or 8 inch length; standard or MC (Maximum Control) band.

Tibia: 6, 7 or 8 inch length.

Hinges

Patented aircraft aluminum TM5+ with adjustable extension and flexion stops.

Finish

Smooth or textured powder coating. Custom paint finish available.

Warranty

One year warranty covers shell or hinge failure (free repair or replacement). Six month fit adjustment (no charge remold or remake) for custom braces. Six month warranty for straps, pads and other replacement parts.

Townsend's Rebel Series braces provide exceptional protection and support for ligament injuries and instabilities. These braces are ultra lightweight, low profile, and are backed by a no migration guarantee.

Potential Users

- Post-injury, post-surgery protection and control for ligament instabilities
- Prophylactic protection for athletes playing football and other high risk sports

Models

For contact sports and heavy duty users

All purpose model for sports and activities of daily living

For women, children and non-contact sports

Ordering Options

Color: Available in a variety of textured and high gloss powdercoat finishes.

Standard Sizes: XS-XXL determined by thigh circumference measurement for stocking inventory or individual patients with proportional leg sizing.

Customized: Townsend is the only orthopedic manufacturer that will "customize" a prefabricated brace at no additional charge. Provide leg circumferences 6" above and below knee center, and a M-L knee width. Braces ordered from three leg measurements are backed by our exclusive "Get It. Fit It." guarantee. The brace will fit right out of the box, or we will pay for it to be returned for adjustment or replacement.

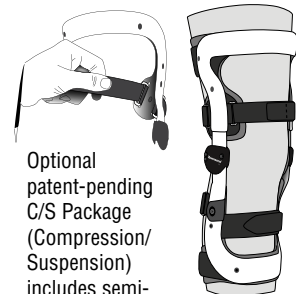

Custom: Fabricated from a cast, digital scan or Townsend measurement devices.
