

SpinaLux™

The SpinaLux™ is a patient-friendly prefabricated "body jacket" that achieves firm torso control yet maintains comfort through the use of plushly lined body-contoured anterior and posterior shells.

Features & Variations

- The posterior shell includes spinal relief, a spinal corrugation ring for support, and molded tongues.
- Patient-friendly pull straps with D-Rings
- Plush, breathable, washable tri-laminate foam liners
- 2 front heights, each in neutral or pendulous
- 3 back heights, each in four lordosis variations
- An alternative SpinaLux Lite™ is available
